The preliminary examination of George F. Rose, John B. Rose, John Edwards, Edward Gibbons and George D. Jones charged with the murder of Jens F. Frederickson

and wife, near South Bend Pacific county, Wash. the last week in January, took place at Bay Center yesterday. After the hearing of testimony regarding the finding of the

We had it all made up as to how we were to do the killing. Father and Edwards went up

Frederickson's house to get him to come down to help hunt cattle. After he came father Edwards, Gibbons Frederickson and I went down to the woods west of the house. Edwards went first, father next then I then Frederickson and Gibbons.

We buried Frederickson just where he fell. Before we buried him father took all the money Frederickson had in his pocket and divided it be-

I also wish to say that I voluntarily offered to go with the sheriff and show him and the party searching for the body just where Mrs. Frederickson was buried. I could not hang off any longer.

## TERROR OF THE CZAR

Police - Flag a Great Police Tyrant - Indignation Over Shooting of the University - One of the Arrested Students a Prince.

St. Petersburg, April 4.—(Pacific Postal Special.)—The absolute secrecy observed by the authorities of St. Petersburg in regard to the condition of the czar has left the way clear for a flood of rumors of the most incredible kind, and in many cases, the most improbable character. Not only is it secret maintained in St. Petersburg, but the same degree of popular ignorance concerning his majesty prevails in St. Petersburg, where people are even forbidden to indulge in public speculation on the subject.

It is permitted to be known, however, that intense excitement exists in the Russian capital, and that it is upon the increase. The closing of the universities has swollen popular discontent by the realization that such such has been the result of the future career of thousands of young men who, by deprivation of the ensuing year's course in the institution from which they are debarred will be compelled to devote themselves to other pursuits. It is, indeed, their enforced leisure which is regarded in this quarter as a contemptible act.

Churchill Attacks the Land Purchase Bill. St. Petersburg, April 4.—(Pacific Postal Special.)—Churchill has written a second letter to the press in which he ridicules the proposition that the land purchase bill is a tranquillizing and pacifying measure. On the contrary, he says, it is a measure calculated to excite and intensify the feeling of jealousy and repudiation of the czar among the peasants whose landlords refuse to sell. Five years of continuous repression, he believes, will exhaust the patience of the peasants and will lead to a state of anarchy never contemplated. He also attacks the bill as a measure intended to give the czar a personal property in the land.

St. Petersburg, April 4.—The police at Gatchina have discovered explosives on the grounds of the imperial palace. The imperial family has in consequence renounced the use of going there. The czar and the empress have been confined to the palace for two days following from a release of influenza which compelled him to postpone audiences. His condition is not serious.

land, the occupation of which for vital reasons constitutes her sole interest in Turkish affairs, would be the death-knell of Turkey in Europe, and it is still less difficult to see that the sultan would regard it as a suicidal act to engage in any negotiations or other movement which would compel England's evacuation of that country, a circumstance which would result in the loss of Constantinople almost immediately thereafter. If France is deceived by the pending negotiations she will stand alone in her estimate of the conference and constitute herself a monument of gullibility more amazing than the most astonishing of the present wonders of the world.

## CABLE NOTES.

The Contemptible Primrose League.

London, April 4.—(Pacific Postal Special.)—The Primrose League is about to publish in pamphlet form for distribution as an election document a speech recently delivered by Sir William Martin Parnell, conservative member for Brighton, on the report of the Parnell commission. In this address, which is by all odds the most offensive literary interference on the subject yet made, Sir William attacked the report of the Parnell commission, and the charges made against them, and took the ground that the government, having accepted the report, must necessarily punish the culprits. As the action of the Primrose League in publishing the report is equivalent to an official endorsement of the speech, since its issuance from such a source must obviously have received ministerial sanction, there is much indignation in London, where it is regarded in this quarter as a contemptible act.

## LEATHER OR LEAD ORE.

Massachusetts Will Not Permit a Tariff on Both.

## WILL TRADE VOTES TO PREVENT IT

Glove Manufacturers Ask for Specific Duties—Grave Injustice Done to Merchant John W. Wamsutter, of Philadelphia.

WASHINGTON, April 4.—(Oregonian office corner Fourteenth street and Pennsylvania ave.)—The fight on the tariff is now between the Western men, who insist upon the duty on hides as a trading proposition with Eastern men who represent the leather industry.

Northwestern men desire to retain the duty on lead, and Southwestern men want the lead restored to the position which the Wamsutter bill left it. Massachusetts is willing to trade in any direction to be rid of the hides duty, and will give their votes to the section, either for or against the leather proposition, which will give them in return the most votes for their free hides. The proposition will come up in the shape of a compromise, and may result in sweeping off the duty on both hides and lead, or retaining it on the latter.

It is about the only question now on which any determining vote is expected, which will give them in return the most votes for their free hides. The proposition will come up in the shape of a compromise, and may result in sweeping off the duty on both hides and lead, or retaining it on the latter.

them. Information came in a cablegram from United States Consul Derville at Leipzig. The frauds are said to be an enormous number of gloves from Germany which the merchants of New York and other cities managed to smuggle through without payment of duty. The cablegram was sent direct to Washington. The customs-house officials in New York only knew of it through the cablegram. It is now in the possession of treasury officials who await more definite information with the greatest interest. They are inclined to think that the most enormous scheme to defraud the government that has ever been known will be discovered.

## HE BUILT THEM IN A WELL.

A Kansas Demon Captured While Disposing of His Fifth Victim.

Atwood, Kas., April 4.—(Pacific Postal Special.)—Judge Behrman yesterday sentenced Gracian Cleborad to the state penitentiary for murder. Cleborad is about 20 years old and will probably not live to serve his time out. The crime of which he was convicted was the poisoning of a younger brother, Joseph, last December. Strange to say although there was proof positive of strychnine in the dead man's stomach and every circumstance pointed to Gracian as the murderer, the jury returned a verdict of murder in the second degree, acquitting Mrs. Cleborad, Gracian's wife, who was indicted with him. The judge, however, made a mistake in his jury action by pronouncing a sentence that virtually amounted to life imprisonment.

If the evidence of Cleborad's neighbors is to be believed, the poisoning of Joseph Cleborad was the last of a series of murders as the infamous Ben Crim was exposed in Sabetha county, Kan., in 1873. The Cleborad lived on a claim that was originally settled by Wm. Shaw, who mysteriously disappeared. The evidence indicated that he was murdered for his money and his wife and three sons, of whom Gracian was the eldest, took the claim.

In the course of time Mrs. Cleborad died mysteriously, and her place of burial was never known. The event created much talk, but people seemed to be afraid of the Cleborads, and it was never investigated. It was generally believed, however, that she was murdered and her body thrown into a well.

Later the old man died suddenly, and the neighbors again expected poisoning. This was followed by a fresh burial in the well. This crime was charged to Gracian Cleborad and his wife.

A few months later one of the brothers disappeared, and Gracian said he had gone to Nebraska, but he never came back, and it is supposed the well received another victim.

Last December young Joseph was poisoned, and the murderer was detected by a party of neighbors, who met Gracian with the body of the boy on his shoulder, making straight for the old well. He was arrested and the murder proved beyond a doubt.

An effort has been made to have the county commissioners dig out the old well, now nearly filled up, when proof of all these horrors is likely to appear.

NEW ASTORIA

NEW ASTORIA, situated just across Young's Bay from Astoria, about 3-1/2 miles distant, is one of the most inviting fields for investment in the Northwest. On the completion of the Astoria & South Coast Railroad, and the Albany & Astoria Railroad, the business lots now selling for \$150 will doubtless be very valuable. The history of New Tacoma will be repeated. There is sure to be a great city at the mouth of the Columbia river, and New Astoria is the most desirable location for a city that could be selected, and with two great railroads terminating here, New Astoria is destined to become a great shipping and commercial center. Those who are most familiar with the situation are the most eager for investment.

NEW ASTORIA has deep water frontage and good anchorage, and a harbor well sheltered from dangerous winds. Look at this map and see why the Astoria & South Coast Railway Co., and the Albany & Astoria Railroad Co., have selected terminal shipping facilities here. Only 70 miles more to be graded to connect New Astoria with the great Southern Pacific Railway System. Send for descriptive circular and map of New Astoria. Only a few years ago a block in Spokane Falls was offered for \$300, it is now reported to be worth \$300,000. New Astoria will surely have as rapid growth as any city in the Northwest. Make a thorough investigation and act accordingly.

The Salem Statesman says there should be investigation of the Indian training school at Chemawa.

The business community at The Dalles is very much relieved by the settlement of the sweetmeat strike on the Union Pacific road.

G. M. Irwin, superintendent of the Chemawa Indian training school, has discharged two employees, the carpenter and bookkeeper. He assigns a reason as a reason for their dismissal.

A vein of copper ore, supposed also to contain gold, has been discovered by a prospector about twelve miles southeast of Elletts Fork. The deposit is an excellent one, and it is hoped that it may be developed into paying property.

It is reported at Eugene that Mrs. N. G. Pitzer, of Lost Valley, made an attempt to commit suicide last week. She imagined that her husband and others were trying to poison her, and she attempted to do so with a razor. She was taken to the hospital, but was discharged after a few days.

New comes Hon. Robert Miller, of Jackson county, remarks the Salem Statesman, and says that if the democratic nomination for congressman is tendered him he will not refuse it. Mr. Miller would make a better congressman than any democratic candidate heretofore mentioned. The only thing in the way of his making good congressman is the fact that Hon. Herman would be a better congressman than any democratic candidate heretofore mentioned.

The Wallawalla Chieftain says: "It is stated that some of the politicians in the state are figuring on defeating Hon. Ringer Herman's nomination for congress this year. The people should not deny those fellows the pleasure of figuring, but they ought to sit down on them so completely that the convention meets that they will forget that existence. We believe that the people of the state are not in a position to elect a congressman in Oregon desire Mr. Herman's re-election. Let the would-be politicians remember this."

WASHINGTONIANA.

Blanton, the Colfax murderer, is yet alive to read the brief but pointed obituary notice of him, published in a number of the Ellensburg Register.

Goldendale is said to be rejoicing over the promise of two railroads, one under the Union Pacific and another by the Union Pacific. These proposed railroads have given new life to that city, and property has already advanced considerably. The citizens are not afraid of the iron horse; but give it a hearty welcome on every occasion.

The land office at Seattle is doing a large and satisfactory business. A month's transactions, including 25 final homestead entries, embracing 346,075 acres; 100 original homestead entries, embracing 12,861 acres; 120 cash entries, embracing 13,745 acres; 90 pre-emption entries, embracing 1,000 acres, and 30 original homestead entries, embracing 1,000 acres. The receipts aggregated \$43,476.48.

The Oregon Oracle says: The next legislature will probably open its sessions with prayer. It will be a big job, and it will probably be the last of its kind for many years. The legislature is a body of men, and it is a body of men who are not afraid of the iron horse; but give it a hearty welcome on every occasion.

A comparative statement of freight receipts at Tacoma for the month of March, 1899, and 1900, at the Northern Pacific freight office shows that for March, 1900, the receipts amounted to \$218,345.77, against \$150,120.43 for March, 1899, an increase of \$68,225.34. For the last year there was handled 89,697,214 pounds of freight, and in the corresponding month of March, 1899, the tonnage was 107,831,290 pounds, an increase of 18,134,076 pounds.

The Seattle Times is evidently satisfied with Seattle's new chief of police. The Times says: The election of H. G. Thornton to succeed Mr. Mitchell as chief of police was a most successful one. Mr. Thornton is a man of high character, and he has been making an efficient officer. He has been making an efficient officer, and he has been making an efficient officer.

THE SCALES OF THEMIS.

The Case of J. M. McQuaid Against the

Motor Line Company

Case Out of Town on a Vacation—Payroll

Spokane—Case Postponed—New Circuit

Before Judge Tamm

For the past two days Judge Shattuck has been trying the suit of J. M. McQuaid against the Portland & Vancouver Motor Line Company for \$2,500 damages. The plaintiff alleges that he has been damaged in that sum by reason of the obstruction of free access to his property by the defendants building their road in the street in front of his premises.

The case went to the jury at 4 o'clock yesterday afternoon and as they had not agreed by 5 they were instructed to seal the verdict until they should be arrived at and bring it into court this morning at 9 o'clock.

JAMES IS VERY CLEVER

Attorney J. S. Gleason was to appear before Judge Shattuck yesterday morning on a charge of contempt for having directed an order of the court which demanded him to answer certain questions before. Referee W. T. Blair.

When the hour came it was announced in court that a deputy sheriff had been seeking high and low for the lawyer, but was unable to find him. Mr. Gleason has probably taken short cuts to escape the wrath of Judge Shattuck who is a very strict jurist.

The matter was continued till 2 o'clock in the afternoon to give the sheriff and his deputies another chance to secure their man.

At 2 o'clock though the sheriff had not reported to the court and nothing further was done in the case. It was expected that Judge Shattuck will order the issuance of a warrant for the arrest of Mr. Gleason.

Should the delinquent attorney be sentenced to imprisonment by the court, it is certain that he will be released on a writ of habeas corpus pending the hearing of his case by the supreme court.
